GUIDELINES HNN3.0 HEALTH-NCP-NET
for Pitch Sessions basic level

HORIZON EUROPE #HorizonEU

INTRODUCTION AND BACKGROUND

The 'Pitching Guidelines' document contains tips for institutions from widening countries. The aim of this document is to help applicants prepare suitable materials that will have greater impact when they introduce themselves at brokerage events organised for Horizon Europe calls or other events of this type, which are mostly organised on-line.

The Pitching Guidelines document is provided for information only and reflects solely the view of the authors. This guide has been written as part of the HNN 3.0 project, a Coordination and Support Action funded by the European Commission, with the goal to improve and support the professionalization of the services rendered by Cluster 1 - Health NCPs across Europe, helping for a simpler access to different health related Horizon Europe calls, lowering the entry barriers for newcomers and raising the average quality of the submitted proposals.[NSI] With regard to Widening Countries (WCs), the project includes activities for identifying knowledge gaps and needs of potentially new participants from under-represented sectors in NCPs as well as increasing the visibility and highlighting the expertise of health sector stakeholders in WCs.
